BIORTESIC ORTHOPEDIC 2014-15

Introduction

Introducción

BiOrtesic Tech SRL, se complace en presentarle su línea de osteosíntesis, la más moderna y tecnológica del mercado, fruto del acuerdo de EXCLUSIVIDAD alcanzado para República Dominicana y de DISTRIBUCIÓN AUTORIZADA para el resto de países de Latinoamérica, Europa y África con uno de los fabricantes más innovadores del planeta.

La sede central de nuestra fábrica se encuentra ubicada en el Parque Industrial Tecnológico de Wujin, uno de los centros de fabricación más avanzados de toda Asia y centro neurálgico de ingeniería biomédica mundial junto con el ubicado en la ciudad de Tuttingen en Alemania.

Desde el año 2001 nuestros productos son la opción que recomiendan profesionales de la salud de reconocido prestigio internacional por la calidad, acabado y experiencia en la fabricación de implantes ortopédicos y material quirúrgico de la fábrica. Contamos con tres bases de producción principales que ocupan un total 400,000 m², con un estándar de fabricación de 35,000m² divididos en los departamentos de Ortopedia, Cirugía Torácica, Nuevos Productos, Instrumentos y Grapadoras Quirúrgicas; además de contar con una planta de esterilización de 1.000m² y de dos bases de I + D de 3.000m². En nuestra fábrica solo se utiliza TECNOLOGÍA ALEMANA y la MEJOR MATERIA PRIMA DEL MERCADO (titanio puro -TC4 equivalente Grade 5 en USA- y el mejor acero del mercado).

Nuestro fabricante cuenta con más de 100 juegos de equipos completos de procesamiento vanguardista. Su centro mecanizado de 5 ejes son de las prestigiosas marcas HASS (USA) y DMG y CHIRON (Alemania), así como la máquina de corte de la empresa japonesa STAR y la máquina de roscado de la marca inglesa SODICK EUROPE Ltd.

Somos fabricantes de grandes marcas, además de contar con nuestra propia línea, factor este que le ha permitido a BiOrtesic Tech ofrecer la mejor calidad en todos sus productos al precio más justo del mercado.

Todos y cada uno de nuestros productos son fabricados bajo estrictas normas de calidad y cumpliendo con todos los estándares exigidos por las autoridades sanitarias a nivel mundial comprobado por las normas ISO 9001:2000, ISO13485:2003 (AA/T0287-2003) y certificación de la Comunidad Europea -CE-. Nuestras grapadoras quirúrgicas fueron unas de las primeras en recibir la aprobación de la FDA de los Estados Unidos.

BiOrtesic Tech SRL, is pleased to introduce its line of fixation, the most modern and technological market, the result of agreement reached for EXCLUSIVE DISTRIBUTION Dominican Republic and APPROVED for the rest of Latin America, Europe and Africa with one of the manufacturers most innovative in the world.

The headquarters of our factory is located in Wujin Technology Industrial Park, one of the most advanced manufacturing facilities throughout Asia and hub of global biomedical engineer with the one located in the city of Tuttingen in Germany.

Since 2001 our products are the option that recommend health professionals internationally renowned for the quality, finish and experience in the manufacture of orthopedic implants and surgical supplies to the factory. We have three main production bases covering a total 400,000 m², with an industry standard 35,000m² divided into departments of Orthopaedics, Thoracic Surgery, New Products, Surgical Instruments and Staplers; in addition to a purification plant of 1000m² and two R & D bases 3,000m². In our factory and just GERMAN TECHNOLOGY BEST RAW MATERIAL MARKET (pure titanium Grade 5 -TC4 equivalent in USA- and the best steel market) is used.

Our manufacturer has over 100 complete sets of processing equipment edge. Its 5-axis machining center are of the prestigious brands HASS (USA) and DMG and CHIRON (Germany), as well as cutting machine of the Japanese company STAR and machine threading the English brand SODICK EUROPE Ltd.

We are manufacturers of major brands, in addition to our own line, a factor which has allowed BiOrtesic Tech offer the best quality in its products at the fair market price.

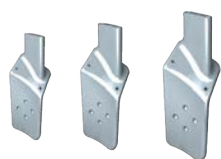

Are each and every one of our products manufactured under strict quality standards and meet all the standards required by health authorities worldwide verified by the ISO 9001: 2000, ISO13485: 2003 (AA / T0287-2003) and certification the European Community -CE-. Our surgical staplers were among the first to receive FDA approval in the United States.

Headless Cannulated Compression Screws

Product No.	Dia(mm)	Length(mm)
10547-(060 ~ 120)	5.5	60-120

15030-001
Parallel Guide

15030-002
Cannulated Screwdriver (SW3.5)

15030-003
Threaded Kirschner Wire (Ø2.4)

13520-025
Triangle Kirschner Wire (Ø2× 250)

15030-004
Hook

15003-010
Retractor

15005-012
Reduction Forceps, Long Oblique

15005-013
Reduction Forceps, Short Oblique

15005-011
Ball Spike

15001-112
Small Reduction Forceps with Point

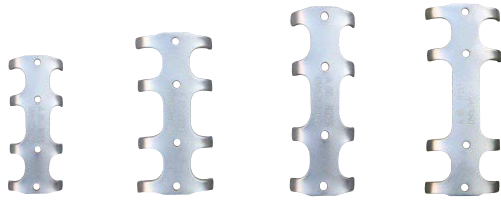

15014-307
Depth Gauge (Ø2.5)

15030 Guidance system for posterior column of acetabulum Instruments Set

Product No.	Product Name	Qty
15030-(001 ~ 601)	Parallel Guide	6
15030-002	Cannulated Screwdriver (SW3.5)	1
15030-003	Threaded Kirschner Wire (Ø2.4)	3
13520-025	Triangle Kirschner Wire (Ø2× 250)	2
15030-004	Hook	1
15003-010	Retractor	1
15005-012	Reduction Forceps, Long Oblique	1
15005-013	Reduction Forceps, Short Oblique	1
15005-011	Ball Spike	1
15001-112	Small Reduction Forceps with Point	1
15014-307	Depth Gauge (Ø2.5)	1
15030-000	Instrument Case	1

Patented Rib Plate & Instruments

10238 Rib Plate

No.	Width(mm)	Length(mm)	High(mm)

102600 Sternal Fixation System

Products Introduction

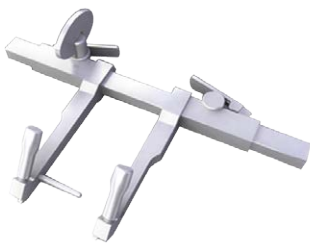

As we all know, there were no ideal products or solutions for after-surgery sternal closure and fixation in the past years. Therefore, Waston devotes itself to researching in this area. Finally, we developed the sternal fixation system after three years unremitting efforts and provided an almost perfect solution for sternal closure.

Indications

Used for sternal closure and fixation after thoracotomy surgery.

Product No.	Specifications(mm)	Range(mm)
10260020	20×11	20-25
10260025	25×11	23-30
10260030	30×11	30-35
10260035	35×11	35-40
10260040	40×11	40-45

102500 Operating Instruments

15025001
Sternum Closure Deveice

15025002
Slot Head Screwdrivere

15025003
Plate Cutting Clamp

Product No.	Product Name	Qty
15025-001	Sternum Closure Deveice	2
15025-002	Slot Head Screwdrivere	2
15025-003	Plate Cutting Clamp	1
15025-000	Instrument Case	1

Product No.	Dia(mm)	Length(mm)
13001-018	1.8	570

15052-001
Double Direction Wire Draw

15052-002
Wire Cutting Forceps

15052-003/103
Wire Hook (Large/Small)

15052-004
